**ABSTRACT OF THE DISCLOSURE**

7     The present invention relates to a cherry tree, *Prunus avium*, and more  
8     particularly to a new and distinct variety broadly characterized by a  
9     large size, vigorous, hardy, self-sterile, productive and regular bearing  
10    tree. The fruit matures under the ecological conditions described in  
11    late May, with first picking on May 24, 2003. The fruit is uniformly  
12    large in size, very sweet in flavor, oblate in shape, semi-freestone in  
13    type, firm in texture, yellow to red in flesh color, and dark red in skin  
14    color.
